

Webinar Series:  
**What is Right  
for *Me* in *My*  
Prostate Cancer  
Treatment?**

**Tomorrow!** Join us for the first webinar in our 2021 series, ***What is Right for Me in My Prostate Cancer Treatment?*** This webinar will be a discussion on the topic of *Bone Health and Nutrition*. Some prostate cancer treatments are known to adversely affect bone density and make men more susceptible to fractures and breaks. But there are things we can do to strengthen and protect our bones, and therefore help us to maintain an active, healthy lifestyle. Often overlooked, the role your diet can play may surprise you. Please join us as we discuss this important topic.

**Bone Health and Nutrition**

Thursday, February 25

7:00 - 8:30pm Central
